Our restaurant is a place where you will be greeted by the smell of charcoal from our grills, where we prepare not only steaks and burgers. Since 2015, we have specialized in grilling and gradually began to invest in Spanish Josper grills, in which we use natural Marabú charcoal from Cuba. We bought our first grill in 2021 and this year we bought another one to continue improving our grilling and offer you unique and original experiences. You can watch the preparation of your steaks with your own eyes, thanks to our open kitchen, which offers a unique show cooking experience.

Our priority is the quality of ingredients, a friendly atmosphere and unpretentiousness. We enjoy trying to combine classic Czech cuisine with modern elements of trends from around the gastronomic world.

The rotisserie method has been around for grilling since the Middle Ages. With this grilling method, there's nothing standing between the meat and the heat source, like a pan, baking sheet, or any other cooking tool. We only use Marabú charcoal for grilling, which gives our food an authentic flavor and a one-of-a-kind aroma. The final outcome is tender meat with a lovely golden-brown hue.
